<p>This is a very large building of the early Colonial period. Its proportions are truly massive. It is five bays wide and three bays deep. It has a huge, very high, steeply pitched A-roof. There is a very massive chimney built into each end wall of the house. The first story windows are 12/8 sashes and have much old bubbly glass. The second story windows are 6/6 and appear to be replacements. The windows on the ends of the house are taller and narrower and are 9/6 sashes. There are three 6/6 peaked dormers on the roof. There is a central door with an overlight. Across the front of the house is what appears to be a water-table. If so, this means that the house is of brick, but this can not be ascertained because of the thick coating of stucco.</p> <p>This imposing structure is important for its early date and also for its original usage as a stagecoach tavern. It needs a few repairs and is unrestored, but otherwise is in good condition.</p> <p style="margin-left: 40px;">G. Lamar Haines</p> <p><u>Good condition</u></p>
